

Heart Of The Community Award Nomination

Submitted by Mary Pressley

I would like to nominate **Charles Levie**, a math teacher at Zama American High School, for the Heart of the Community Award.

Mr Levie is everyone's favorite teacher. He has also been the teacher advisor to the freshman class. He is at almost every school event as "photographer". He has been seen at football games, band concerts, and even the JROTC Winter Ball last year, taking photos for the events. If there is a school event, good chance he will be there. Mr Levie is always supporting anything that has to do with the school and a strong supporter of the students. He is always advertising for various sports or other events to gather more school support.

Charles is also the president of the Camp Zama Photography Club. Even though the club is considered a "social" group, we have seen that it has a purpose in the community. When the founder of the group PCS'd, Charles was an important part of keeping the group together.

Charles Levie's passion for his students, the High School, and our community is why I nominate him for the heart of the community award.
